Human resources

About us.

We've been in this business for over 40 years

We have established ourselves in the **fields of mechanical and electrical engineering, plant management and renewable energy**, where we leverage our extensive skills and innovative solutions to play a leading role in our sector.

We prioritise **customer service** and the continuous **search for new technologies** to adapt to a variety of needs. Our industry experience and the constant updating of our skills have enabled us to develop **highly specialised know-how** and to guarantee the highest standard of service.

Respect for the environment is also of paramount importance to us, which is why we strive to optimise the resources available, proposing solutions to save energy and improving living comfort by integrating nature and technology.

To achieve results, it is also necessary to invest in human resources. Indeed, we believe in the ongoing training of our already highly qualified staff, who follow continuing professional education courses in line with the latest working methods and technological developments.

Strengths.

Particular attention is also paid to the **well-being and satisfaction of our collaborators** with a view to building a **stimulating, rewarding and welcoming work environment**. We are a well-established firm, ever aware of our capabilities and always open to change so as to understand and anticipate the needs of people and of the environment.

Expertise and experience

Our team has been working in the industry for over 40 years, and we complement our experience with ongoing training.

Our certifications

We are certified under ISO 9001:2015, ISO 14001:2015, ISO 45001:2018 and ESNA-SOA, KNX. We also have F-GAS certified engineers.

Immediate action

We guarantee round-the-clock availability and rapid action. Our widespread organisation and our collaboration with trusted suppliers enable us to satisfy the needs of customers from a wide geographical area.

We guarantee our work

We work in compliance with current safety legislation. At the end of each project, we issue all the certificates required by law.

Our services.

Design

We design **plumbing, electrical and fire protection systems.**

Our services range from providing **feasibility studies, final and detailed designs**, along with **descriptive graphs, bills of quantity and estimates**, through to commissioning systems and supervising works.

01.

Installation

Installation of **mechanical, electrical, special and fire protection systems.**

The implementation of these different types of systems, from electrical to plumbing and heating, is taken on entirely by the company to ensure an **efficient service at competitive prices.**

02.

Maintenance and assistance

We guarantee **round-the-clock availability.**

Our long-standing experience in the field of **after-sales assistance** enables us to guarantee not just design and installation, but also **system maintenance and 24/7 availability all year round.**

03.

Building automation

We have **ten years of expertise** in the field of building automation, acting as a **SIEMENS Authorised Technical Partner.** The primary goal is to **optimise the management of buildings** by reducing consumption and waste and by regulating and setting system parameters **remotely.**

04.

Sanitisation

We offer an **efficient sanitisation and disinfection service.** We offer customers different types of sanitisation based on their needs and spaces.

Our certifications.

We are certified under **F-GAS, ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, ESNA-SOA, KNX**. Our constantly trained staff holds F-GAS and boiler licenses. Our mission is to satisfy customers and their needs.

The relationship of trust and collaboration that we have managed to build with our loyal customers allows us to maintain the highest quality standards for our products and services.

ESNA-SOA

YEAR 2012

Certificate qualifying us for the execution of public works pursuant to Italian Presidential Decree 207/2010.

CERTIFICATO F-GAS

YEAR 2014

Installation, maintenance and repair of stationary refrigeration, air conditioning and heat pump equipment containing certain fluorinated greenhouse gases in accordance with the provisions of Regulation (EC) No. 303/2008.

ISO 9001:2015

YEAR 2014

Design, installation, maintenance and remote management of air conditioning, plumbing, gas, fire protection, electrical and special systems (video surveillance, alarm, smoke detection, telephone, medium voltage). Direct and third-party management of heating systems.

Our premises.

Our premises are located in **Campolongo Maggiore, Venezia and Bolzano**, and we operate in a geographical area that includes **Veneto, Lombardia, Trentino Alto Adige, Emilia Romagna and Friuli Venezia Giulia**.

We are currently coordinating our production operations and business objectives with other companies in the construction, plant engineering and equipment sectors as part of an **entrepreneurial strategy** that aims – in line with the current times and expected **future developments** – to progressively develop an industrial and financial group capable of tackling challenging initiatives and projects with great flexibility and first-rate expertise.

Bolzano

The Bolzano branch is used as a base for our business activities in **Trentino Alto Adige and surrounding areas**.

Venezia

The new branch in **Venezia**, located in the **historic city centre**, allows us to serve customers more promptly and effectively.

Campolongo Maggiore

Our headquarters are located in the town of **Campolongo Maggiore**, midway between Padova and Venezia. It covers an area of about **900 square meters**, and is split into two areas: management/administrative and logistics.
